

PEARL YACHTS TO ATTEND THE CANNES YACHTING FESTIVAL 2017 WITH BEST SELLER PEARL 65

Warwick, September 2017. Pearl Yachts, one of UK's leading luxury yacht builders will take part in the upcoming Cannes boat show displaying its best seller Pearl 65 Flybridge.

Created by the successful collaboration between award-winning naval architect Bill Dixon and world-renowned interior designer Kelly Hoppen MBE, this 20 meter yacht has proved to be one of the most successful built by the shipyard, with more than 6 units sold since its launch.

Sleek lines give the yacht a fresh and contemporary style for the exterior areas; an interesting contrast with the interior design characterized by Hoppen's renowned calm and elegant style. Designer Kelly Hoppen has given every space a homely touch, thanks to a soft mix of material textures and an elegant colour palette, that invites guest to relax. Up to 8 people can be welcomed on board: at their disposal 4 cabins in the Lower Deck, including the Master Bedroom suite and 3 VIP double cabin, one of them custom made according to the owner's requests.

The spacious Flybridge, fully equipped with wet bar, fridge and electric barbecue is the ideal space to relax and enjoy the time on board.

Pearl 65 features pod-drive propulsion, incorporating joystick control technology that gives the owner joystick manoeuvrability and the ability to operate the yacht without crew, if preferred. Powered by either triple Cummins Zeus 600hp or Twin Volvo IPS 800hp engines, the yacht will have a fuel capacity of 770 Gallons (3,500 litres), reach a top speed of 32 knots and have a cruising range of 350 nautical miles.

Pearl Yachts will be at the Cannes Yachting Festival 2017 – Stand PAN017
Pearl 65 will be available every day for visit on board, reserved exclusively to press members, [upon requests.](#)
