

PEARL YACHTS: THE NEW PEARL 80 MAKES ITS WORLD DEBUT AT FLIBS 2017

The new 24-meter Pearl 80 by Pearl Yachts will make its world debut at the upcoming Fort Lauderdale International Boat Show, from November 1 to 5. The new flybridge yacht amazes with numerous features, bright and open interiors, and four guest cabins.

Warwick, October 2017. Impressive manoeuvrability and sea keeping, light-filled interiors and a layout that maximises space are just a few of the main features of the new **Pearl 80**, the elegant flybridge yacht that will be presented for the first time ever this November at the US boat show.

The new Pearl 80 continues the shipyard's hugely successful design collaboration between naval architect Bill Dixon, who designs the exterior, and designer Kelly Hoppen, who looked after the interior layout. As all the Pearl Yachts models, in fact, the yacht features original Kelly Hoppen interior design, with a plus. The owner has 3 styles to choose from: 'taupe', 'studio' and 'luxury', making possible to customise the yacht while retaining the 'designer' interior.

The vast outdoor spaces are equalled by the beautiful calm interior literally flooded with light through the stunning side windows, which give the boat a glamorous profile designed to turn heads. The flybridge, aft of the twin seat helm station, has a covered area with sofas, low tables, a bar unit and a classic sun lounging area right in the stern, furnished with refined chaises longues. The area on the main deck that best expresses the yacht's character is without doubt the elegant saloon, furnished with light colourways and materials. An electrically operated door separates this saloon from the cockpit area, which has a superbly crafted teak/Corian table surrounded by armchairs and sofas. Forward the galley is separated from the saloon by a rise and fall panel allowing privacy if required, the dining area opposite the lower helm and galley is flooded by light from the overhead double windscreen.

The basic layout of the accommodation has four double cabins, two with double beds and two with twin beds (although the twins can convert to doubles), and all are En-suite. The full beam owner's suite is a class leader and situated in the centre of the yacht, and all are on the lower deck. The furnishing of these settings is reminiscent of the colours and materials of the day area, although each cabin has its own special style. The result is a sophisticated atmosphere that is also warm and welcoming.

In the engine room, two MAN V12 1800 HP engines give the yacht a remarkable top speed of 35 knots and is comfortable cruising between 25-27 knots. The range at this speed is approximately 300 nautical miles. Other features include a Jet ski garage, Hydraulic bathing platform, foredeck lounge, hardtop with sunroof and a hot tub!
